

## Chateau Juvenal Pre-Shipment Offer

Our recent tasting of the new releases confirmed the continuing upward trajectory of the Juvenal portfolio with another new wine this year – a fabulous Vacqueyras – and an important price reduction for the top wine, Perseides, even though 2016 is a far superior vintage.

Several of the wines are organic and the rest are on their way. The quality is exceptionally high once again – the Grenache is especially good in 2016 so the 2016 Perseides with its rich, focussed fruit that could almost be mistaken for a Grand Cru Burgundy (and, as such, is a remarkable bargain) should not be overlooked by anyone who likes to experience the essence of the variety at its very best. Most of the wines already have a strong following and more information can be found on the website but special mention should be made of the new Vacqueyras cuvée which has been artfully aged in oak and shows remarkable finesse along with some delightful cherry fruit. A fabulous wine.

Most of the wines have not yet been rated but we have included scores where known.

All wines are packed (and priced) in cases of 6x75cl. Prices in bold are per case with the price in brackets showing how much the wines will cost per bottle once duty and VAT have been added. The “will be” price shows how much the wine will cost when it is in stock. Please note that we do not generally import rosé that has not been ordered as part of the pre-shipment offer.
